

Quality Policy

Wire & Cable Solutions

Guiding Principles for our Employees **2007**

The LEONI Wire & Cable Solutions Division offers its customer high quality products and services delivered just-in-time and made to customer specifications. We have become a reliable supplier of wires, cords, cables and cable systems because of our expertise and global presence.

Our motto for 2007 is:

Quality through expertise and transparency

Our leading market position is not only strengthened through the constant improvement of our product and processing quality but also through quick reactions to customer and market demands. Our certified quality management system makes it possible to communicate our product and competence portfolio in a clear and transparent way and to further adjust our processes to ongoing customer expectations.

The Division's Objective in 2007 is:

Improved alignment of our organisation and processes to our customers' requirements.

The following measures will be implemented in order to realise this objective:

- Basic realignment of the Division's organisational structures and its image
- Improvement of internal knowledge transfer by setting up „Centers of Excellence“ with a technology and process oriented approach

Dr Klaus Probst
